

THURSDAY, JANUARY 12, 1744.

Yesterday arriv'd a Mail from France.  
Lisbon, December 10.

THE King, who is somewhat better in Health than he has been for some time past, assisted on Sunday last at Divine Service in the Cathedral Church. After which, he went to pay a Visit to the Queen, who is also pretty well recovered from her late Indisposition. Last Friday an Express arriv'd from Madrid, with the News that the Prince of Asturias remained still in the same declining Condition. We have an Account that an English Man of War has taken, not far from the Port of Vigo, a Spanish Ship richly laden from America. We likewise hear, that two French Ships were lately forced on Shore by a Tempest near Cape Finisterre; by which unfortunate Accident they were beat to Pieces, and all their Crew perished. An English Privateer has had the same ill Fate on the Coast of Algarve. We still talk of nothing so much here as the Conduct of the Marquis de Candia; who goes frequently to Court, and has had several Conferences with our Ministry; but his Commission still remains a Mystery to the Bulk of this Nation, and very probably will do so for some time; tho' it is suspected, that it relates to a Treaty lately concluded by his Catholic Majesty with the most Christian King.

Cadix, December 17. We have received Advice, by a Vessel which arriv'd from the Havanna in 70 Days, that she failed in Company with a Spanish Man of War laden with Silver and Tobacco; and therefore we every Moment expect the News of this Ship's being arriv'd in some of the Ports of this Kingdom. We have Intelligence by the same Vessel, that three of our Register Ships are arriv'd at Vera Cruz; that a Ship called our Lady of Mercy arriv'd safely at Carthagena, and another Register Ship, called the Holy Ghost, was likewise got safe into the Havanna. An Express was dispatched to carry all this good News to Court this Morning, and about Noon arriv'd a Courier from Madrid, with Orders for our Governor, but of what Nature is not yet known.

Madrid, December 24. On the 19th there was grand Gala at Court on account of its being the Anniversary of the King's Birth Day, who enters on the 61st Year of his Age. The Count de Paredes covered himself this Day before the King, for the first time, as a Grande of Spain. The King has lately bestowed several Regiments, and we expect, speedily, a grand Military Promotion. This Morning an Express was dispatched for Cadix, with Orders of great Importance, which are said to regard a certain secret Expedition; but when, or against whom it will be put in Execution, is not in our Power to determine.

Lisbonne, December 30. The Infant Don Philip is preparing to send the best Part of his Army into Provence, where there are still Provisions and Forage to be met with; whereas Savoy is totally exhausted. It is thought there is also another Reason, which is, that they may be nearer at hand for the Execution of the Projects formed by the Two Crowns against Italy; and may likewise more easily receive Reinforcements from Catalonia. Another Part of the Infant's Army, viz. the Swiss Troops, are on the Point of marching also, but it is back again into their own Country, from whence they will not easily be drawn again. They have, hitherto been treated in a very extraordinary Manner; that is to say, they have been, without Ceremony, put upon Half Pay and Half Food, by which the Regiments are half reduced; and they have neither made any Overtures for recruiting themselves, or put it in the Power of their Officers to recruit them. Spain must certainly expect very large Succours from France, since she values her Troops so little; but we shall quickly shew her, that if she can do without our Men, we can do as well without her Money. The Canton of Berde has begun by a brisk Resolution; the Canton of Zurich has followed her Example; and these two Cantons having led up the Dance, the rest will follow in their proper Order. We are, at present, as much imbitter'd against the House of Bourbon as any Nation in Europe; and if Things had been at this Pass Six Months ago, Prince Charles might have paid a Visit to Alsace and Franche Comte without any Opposition from the Cantons.

Mentz, January 5. Baron Palm, the Queen of Hungary's Minister, is arriv'd here from Franckfort, where we are inform'd, he conferred with several of the Publick Ministers, but in Private, and without Ceremony.

Among other Papers published in relation to the Conduct of our Elector, in transmitting the Queen of Hungary's Protest to the Dictature of the Empire, there is one, in which it is laid down for Law, that in certain Cases his Serene Highness ought to consult, not only the Electoral College, but the College of Princes, before he proceeds to take any such Step. To which a very smart Answer has been given on the Part of our Court; in which it is demanded, How, admitting the Legality of this Proceeding, it can be brought about; for, as hitherto no Method has been fallen upon of bringing any Thing before the Dyet, but by transmitting it first to the Dictature; the Issue of this Proceeding must be, to bring it first to the Dictature, and then consult the Two Colleges whether it shall be brought there or not? The Absurdity is visible, and from thence it clearly appears, that this Method is impracticable.

Berlin, January 4. The Day before Yesterday the French Minister, M. de Vallori, received two Expresses from his Court, upon which he demanded a Conference with the Count de Podewils, which lasted three Hours; and, upon his Return to his Palace, he dispatched a Courier to Petersburg; and on the Return of this Courier, an Affair of the last Importance is said to depend.

Extract from the Paris Alaman.

Paris, January 17. 'The King, who set out on the 15th for Marly, will return on Candlemas Eve to Versailles; from whence his Majesty will set out again the next Morning for Choisy.

'We are assured the King declared, before his Departure, that there would be speedily a Congress, to which the Ministers of the respective Courts concerned in all the present Disputes will repair, in order to adjust their Claims; and bring about, if it be possible, a general Pacification; and a Suspension of Arms is also talked of.

'The Marquis de Fenelon has received Orders to return immediately to the Hague, in order to resume the Functions of his Ministry.

'The Regiment of Ulans, which were lately levied in Poland by the Orders of the Count de Saxe, is complete, and they arrive every Day in small Parties in Strasbourg; and we are assured, they will make the next Campaign under that General, who is to command in Chief upon the Moselle.

'Count Montijo, Ambassador from the King of Spain to the Emperor, who has been for some time at this Court, had, on the 14th, a private Audience from the King, in which he took Leave of his Majesty; he was afterwards conducted to an Audience of the Queen, the Dauphin, and the Princesses of France.

'A Letter from Commerci, dated the 11th of this Month, acquaints us, that mighty Rejoicings have been made there on account of the Marriage of Prince Charles; and, amongst the rest, a grand Supper, which was follow'd by a Ball, that lasted the whole Night. Several Sharpers, extremely well dress'd, who had found a Way to thrust themselves in, were apprehended in the very Exercise of their Professions.

'Our last Letters from Toulon inform us, that the combined Squadrons of France and Spain will not fail from thence till towards the End of next Month.

'The Prince of Conti has ordered his Baggage to set out by the 15th of the Month of February; and Horses are laid upon the Road for his Service.'

## SCOTLAND.

Edinburgh, January 3. We have the disagreeable News, that several Vessels have been lately lost among the Highland Seas; particularly a Brigantine, with Sugars from Jamaica for Lancaster, lost on the Island of Bara; the Men are saved. A Boat with 12 Men is cast away near Isla.

Yesterday the Lord Provost of this City determined the Relevancy of the Criminal Libels concerning Francis Sutherland, Daniel Mackenzie, and Anne Coventry, and found the same Relevant to infer the Pains of Law. Anne Coventry petitioned for Banishment, to which the Court agreed; and this Day, at 12 o'Clock, his Lordship pronounced Sentence on Sutherland and Mackenzie, ordering them to be hang'd the 8th of February next.

This Morning, at Four o'Clock, a dreadful Fire broke out in Paul's Work, at the Foot of Leith Wynd; and, notwithstanding the Care and Activity of the Lord Provost and Magistrates, the whole Tenement was burnt down, and all the made Cloth and Materials consumed to Ashes.

They write from Petersburg, that the Empress has ordered all her Forces to be completed without delay; and has also declared, that in case the Differences between the Courts of Sweden and Denmark are not accommodated before Spring, she shall be obliged to set in such a manner as may be most Effectual for the Support of her Allies.

The last Advices from Hamburg inform us, that vast Remittances have been made from France in the Space of six Weeks, chiefly for Stockholm and Petersburg.

From Dydien they write, that Preparations are making for the King's Journey into Poland; but that the Day of his Departure having been from time to time put off, it is now believed that he will not set out before March; tho' it is certain, his Presence was never more necessary in that Kingdom.

The same Letters say, that they have certain Intelligence from Warsaw of the Death of Prince Lubomirski, of a second Fit of an Apoplexy, brought upon him through Grief, that a Dispute about dancing with his Daughter should create such Animosity between Count Tario and Count Poniatowski, as is likely to prove fatal to the Peace of Poland.

Private Letters by the last French Mail inform us, that the M. de Candia has at last pulled off the Mask at Lisbon, and assumed the Character of Ambassador and Plenipotentiary from his Catholick Majesty; instead of proceeding to Denmark, as he at first pretended.

Count Colerado is returned from Vienna into Italy, with Directions to Prince Lobkowitz to prosecute, without Delay, the Scheme he has concerted with his Sardinian Majesty for the carrying on the War in that Country.

By his Majesty's Ship the Advice, Capt. Smith, from Barbados, we have Advice, that the Ludlow-Castle Man of War, Capt. Stevens, from Jamaica, was put into Antigua. We hear she lost her Masts, and had ten Foot Water in her Hold.

The George and Henry, Bowler, from Jamaica for London, is put into Carolina. She has lost her Rudder, and had about 100 Hogheads of Sugar washed out.

The Ship carried into Guitera, proves to be the Mary-Anne, Wamsley, from Jamaica for Glasgow.

The Third and Fourth Volumes of the Harleian Catalogue has been presented to his Majesty, and graciously received.

Extract of a Letter from Constantinople, dated the 20th of November, 1743.

\* We have had the good News of Mosul's being safe, and expect more of greater consequence; for the Left-geers have taken Genge, Teflis in Georgia, with the Province of Shervan, and its Capital Shamack and Derbent, in the Name of the young Shaw, that took Refuge in Turkey; and they are marching to Tauris, which is near Erbil, where the Shaw is girt with the Sword of the State, and the Turks send a great deal of Money to the Left-geers, with an Army of 40,000 Men. It is said, this made Thomas Kouli Kan raise the Siege of Mosul, to prevent the Coronation at Erbil; and his March was so precipitate, that he flung his heavy Cannon into the Tygris.

Yesterday died, at his House in Mile-End Road, Captain Snelgrave, who was lately elected one of the Brothers of the Trinity House.

**Dr. John Hooper's FEMALE PILLS,**

For many Years in his own private Practice as a Man-Midwife and Apothecary, in all Cases more peculiarly incident to the Female Sex; and as, since their Publication to the World, they have been found of more general Use in these Cases, than any Medicine ever yet invented: In order therefore to secure the Property to the said Dr. Hooper, and his Assigns, &c. and to prevent counterfeiting so excellent a Medicine, his Majesty has been most graciously pleased to grant his Royal Letters Patent under the Great Seal of Great Britain.

These PILLS, by long Experience in private Practice, have been found the most useful Remedy against those general Complaints the Female Sex are subject to; they cleanse, purify, and cause a free Circulation of the Blood, when in a Manner stagnated; open those Obstructions which Virgins are so liable to, and bring Nature into its proper Channel, whereby Health is recover'd, and the Patient, that look'd like Death, restor'd to a lively Complexion. They are the best Medicine ever discover'd for young Women, when afflicted with what is vulgarly call'd the Green Sickness, which two or three Boxes will certainly cure; and are also excellent for the Palpitation of the Heart, Giddiness, Loathing of Food, bad Digestion, Pains of the Stomach, a Beating of the Arteries of the Neck, short Breath upon every little Motion, Sinking of the Spirits, a dejected Countenance, and Dislike to Exercise and Conversation; and likewise for the Scurvy. For all which Distempers they are a never-failing Cure, and are to be given from seven Years old to seventy. They are likewise equally proper for married Women, unless when with Child, and ought always to be taken one Month after Delivery; for they cleanse the Body, and purge off those gross Humours, which, when retain'd, generate numerous Diseases, and render Women unhealthy all their Lives; and therefore should be taken by all Women at the Age of Forty-five or Fifty, to prevent those Disorders that usually attend them at that Time. These PILLS have likewise been found a Sovereign Remedy either for Men or Women, in all Hypochondriac, Hysteric, or Vapourish Disorders; for they exceedingly strengthen the Nerves, throw off all gross Humours tending to Melancholy, invigorate the sinking Spirit, and cause an universal Cheerfulness in the Body. They are Cordial to the Stomach, and agreeable to the Smell and Taste.

By Virtue of the Patent abovesaid, I have appointed Messieurs William and Cluer Dacey, and Comp. and John Newbery, my ONLY VENDERS of these Female Pills; to whom all Persons are desired to apply for them, at their Warehouse, the Bible and Crown without Temple-Bar, and at Dr. Bateman's Warehouse in Bow-Church-Yard, London; or at their Printing Offices in Northampton and Reading; at all which Places, Merchants, Captains of Ships, and Country Dealers, will have good Allowance to sell again; and particular Bills in any Language will be printed for such as take Quantities to Foreign Parts.

Sold also Retail at my House in Reading,

JOHN HOOPER.

N.B. Each Box contains 40 Pills, which is about 10 Doses, and are sealed up in their Directions, with a Seal having these Words, JNO. HOOPER'S FEMALE PILLS, and round it, BY THE KING'S PATENT, the same as in the Margin. Price One Shilling the Box.
